

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

BECKER JIBA WSC has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During [compliance period] we [did not monitor or test – or – did not complete all monitoring or testing] for [contaminant(s)] and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for [these contaminants], how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were [or will be] taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
<i>Lead and copper tap water sampling</i>	<i>EVERY 3 YEARS</i>	<i>20</i>	<i>JUNE 1ST-SEPT 30, 2022</i>	<i>10/27/2022</i>
<i>Lead and Copper entry point sampling</i>				
<i>Water quality parameters</i>				

What is being done?

We are working to correct the problem. For more information, please contact BECKER JIBA WSC at 903-498-3592 or 15269 FM 2860 KAUFMAN, TEXAS 75142.

BECKER JIBA performed routine lead and copper monitoring samples between June 1st and September 30th, 2022, but the laboratory used by the district was not able to submit the last batch of routine samples until October 27th, 2022. The water quality is currently in compliance. No action of the customer or district to update the quality of the water is needed at this time.

Please share this information with all other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
